

■ CODE RESCUE

Rules & Regulations

1. Eligibility

- The event is open to registered students/participants.
- Each participant can register only once.
- Participants must carry a valid college/student ID.

2. Event Format

- The event will consist of 2–3 rounds.
- Each round will have a fixed time limit.
- Only participants who qualify in one round can proceed to the next round.
- The difficulty level may increase with each round.

3. Coding Rules

- Participants must write and submit their own code.
- Only the programming languages announced by the organizers are permitted.
- Code must follow the specified input/output format.
- Programs will be evaluated using test cases, including hidden test cases.
- Correctness, efficiency, and completion within the time limit will be considered.

4. Prohibited Activities ■

- Use of ChatGPT, GitHub Copilot, Gemini, or other AI/code-generation tools is prohibited unless specifically permitted by the organizers.
- Copying code from another participant or external solution is prohibited.
- Communication with other participants during the coding round is not allowed.
- Use of unauthorized websites, notes, devices, or external assistance is prohibited.
- Plagiarism or malpractice may result in immediate disqualification.

5. Time & Submission

- Participants must submit their solutions before the announced deadline.
- No extra time will normally be provided for late submissions.
- In case of technical issues, participants must immediately inform the event coordinators.
- Multiple submissions may be allowed depending on the round, but penalties may apply if included in the scoring system.

6. Scoring

- Correctness

- Execution/time efficiency
- Problem-solving approach
- Timely submission
- In case of a tie, earlier submission time or lower execution time may be used as the tie-breaker.

7. Disqualification

- Plagiarism or copied code
- Use of unauthorized AI/external assistance
- Communication with other participants
- Tampering with the contest system
- Misconduct or violation of organizer instructions
- Any unfair means

8. General Conduct

- Participants must report to the venue 15–30 minutes before the event.
- Participants must follow instructions given by coordinators and judges.
- Any disruptive behavior may result in removal from the event.

9. Judges' Decision

- The decision of the judges/event coordinators regarding scoring, qualification, penalties, and disqualification will be final and binding.

10. Important Note

Participants are expected to compete fairly, respect other participants, and demonstrate their own coding and problem-solving skills.
